# Business Technology Management

Products and business models in today's competitive environment are increasingly being transformed by technology. This new digital economy places IT at the center of firm strategy and operations, and requires a new breed of IT managers and leaders who can examine technology through a business lens. The Business Technology Management specialization empowers you with knowledge of the IT domain, management, leadership and team building skills, and functional and analysis skills. These skills are critical to leveraging technology to create competitive advantage.
